CORK
MEDICAL

Save time and money with the Cork Equipment Management System App

Manage your facility's product inventory and expenses with Cork Medical's new EMS application.

The Cork EMS app is designed to help facilities maximize the use of innovative wound care solutions by easily tracking rental equipment, cost, usage, and more across multiple locations. The application ties directly into Cork Medical's database, thus providing the most accurate and up-to-date information at your fingertips.

Track Orders
Gain access to real-time updates on orders anywhere, anytime

Stay Connected
Search by facility name or patient name to see where cost is being allocated

Run Reports
Get detailed reports on satellite facilities to maximize usage and reduce cost

HIPPA Compliant
Multistep verifications ensure your information is always protected
